#### Introduction

The successful experience of the world's leading countries in the economic sphere is the result of their strong focus on the export promotion and development of foreign trade. TPOs functions including; promotion, facilitation, information & administration, provide support for the business community. The three core functions of trade policy, trade promotion & trade facilitation will provide support to build productive capacities, upgrade industrial and agro-technologies & expand exports and markets. In pursuit of those objectives and in view of the leading role of TPOs in preparing new policies providing supporting facilities needed to develop a comprehensive infrastructure for the foreign trade, the Export Promotion Center of Iran (EPCI) with nearly four decades of hands-on experience in promoting the Non-Oil Export was restructured in 2004 and took up its new mandate as "Iran Trade Promotion Organization".
